

COFFEE MACHINE

Conor's been grappling with the coffee machine all year and it still barely works. Some coffee is better than no coffee and so I want to get a kettle and instant coffee (and hot chocolate) for the JCR on a permanent basis.

MERTON DISCOUNTS

As Sponsorship Officer for the Ball I have experience working with local businesses to secure discounts, I'd like to do the same all year round whether that's with stationary, sandwich shops or Ben's cookies.

TRANSPARENCY

Tell members clearly what is happening with our money. Explain where and how money has been spent beyond general headings such as "Exec Expenses" and "Misc" by breaking down expenses by positions

ACCOUNTABILITY

Try to involve members in the budget process before we send out the budget at the start of term. If there is extra money, I'd like to poll JCR members about what their priorities are and distribute the funds accordingly

I want to make sure that the Merton JCR has the money to continue doing the great things it is doing for us students and that this money is allocated transparently for activities that the members want.

Siddhant Iyer

FOR TREASURER

Hi, I'm Siddhant, a first-year lawyer! I currently serve on the JCR Committee as your Affiliated Organisations Rep and would love to continue serving the JCR as your Treasurer!

I am an active member of the Merton community, especially in my role as President of the Neave Society and Sponsorship Officer for the Merton Winter Ball.

SKY/BT SPORT

We are spending a lot of money on Sky and it currently doesn't work. I want to cancel this subscription and explore what JCR members would like to do with this money, whether it is buying another subscription like BT Sport or reinvesting the money somewhere else.

EXPENSES CLAIMS

We all know Exec members and JCR supported societies (Neave, Bodley) add a lot to Merton's community, but there's no organised system for how they claim back expenses when they do it I'd make a simple online form for them to fill out which facilitates the process
