

VOTE RÓISÍN FOR VICE PRESIDENT!

(please)

Hi, I'm Róisín (she/her) and I'm a first year History & English student from North West London. In the past few terms, I've seen the impact of the diligence of Lucy and the entire JCR committee on college life, and I would love to contribute to that in my own way as your VP.

Why me?

Involved - I've enjoyed getting involved in the many activities the college has to offer: helping with arts & culture events, attending film soc and gardening club, and getting a bit too invested in bop themes (see above).

Outside of my degree, my hobbies include playing piano, monopolising the bar jukebox, and keeping up my German and Irish language skills by doing my Duolingo absolutely anywhere (my worryingly high streak can attest to my commitment).

Committed - I love the college and I'm enthusiastic about getting involved, getting to know even more people, and hopefully making a positive impact on college life.

Practical - As a Henguin with few contact hours, I will have a lot of flexibility in organizing my time, meaning I can devote my full efforts to the role!

My Ideas

Student events - We are lucky to have so many creative individuals at this college, and I hope to encourage this by making the room-booking system more efficient and transparent. An all-in-one term card, covering all areas, would also help students plan in advance and increase engagement with in-college activities.

Communication - I plan to further utilise Instagram as a place of information to reach more people (especially those who are Facebook-averse), and as a hub for the various other JCR accounts (entz, welfare, access, etc.).

Access - As a state school student, I understand that outreach to under-represented groups is certainly an area of improvement for Merton. I know this is something Lucy has been passionate about, and I mean to continue her efforts.

Feedback - I understand that some people cannot attend OGMs (or just find them a bit intimidating) but still have ideas for the JCR. I plan to send out regular feedback forms to help everyone have their say!
