 - i. *Quorum Count*: the Quorum Count shall proceed automatically if allowed by the Chair; the Quorum of the General Meeting is thirty members; the General Meeting shall be assumed to be quorate unless a Quorum Count is requested; if found to be inquorate, the General Meeting shall adjourn for five minutes, or for up to half an hour if the Chair so

determines; if quoracy is still lacking after reconvening then this shall be recorded in the Minutes and the meeting shall proceed in an advisory capacity only; further motions passed shall not become policy until the Minutes of the inquorate meeting are passed at the next Ordinary General Meeting.

- ii. *Challenge to the Ruling of the Chair*: the Proposer of this motion must state what they think that the ruling should be; resolution is by simple majority vote of those present.
- iii. *Secret Ballot*: requiring the support of two Ordinary Members present and voting to pass, this Procedural Motion shall force any Vote in the process of being held, but having not yet begun, to be held by Secret Ballot. The conduct of the Secret Ballot shall be fair under the charge of the Secretary to the General Meeting and the Returning Officer, and Voting must be done either through use of ballot papers, or a method unanimously supported by all Ordinary Members present. If possible the General Meeting should continue whilst the result of the Vote is determined. Secret Ballot shall overrule Vote by Physical Division.
- iv. *No Confidence in the Chair*: this requires the support of two-thirds of those present to be passed; if passed, the member acting as Chair shall vacate the Chair for the remainder of the meeting; the Chair shall pass to the next suitable member according to S.O. 6.7.1.
- v. *Expulsion of Strangers*: pursuant to S.O. 6.1.1 and requiring a simple majority vote to pass, Expulsion of Strangers shall result in all non-Members being asked to leave the General Meeting.

- vii. *Removal of Silent Observation*: any member may propose this Procedural Motion in favour of any stranger present at the General Meeting; requiring the support of a majority of those present. If passed, the stranger in question shall be allowed to contribute to the debate but not to Vote.

- ix. *Deferral*: by simple majority vote, a motion on the agenda of an Ordinary General Meeting may be deferred to the subsequent Ordinary General Meeting. Motions before Emergency or Extraordinary General Meetings may not be deferred.
- x. *Refer to Referendum*: by simple majority vote, resolution of a motion on the agenda of the meeting may be determined by a Referendum rather than a Vote in the meeting, in accordance with Article VII and S.O. 5.
- xi. *Voting in Parts*: requiring a simple majority vote to pass, this Procedural Motion shall force the meeting to debate and vote upon the motion under consideration in the parts in which it was submitted; Voting in Parts does not force the meeting to move to a vote.
- xii. *Vote by Physical Division*: requiring a simple majority vote to pass, this Procedural Motion shall force any Vote in the process of being held, but

having not yet begun, to be held by Physical Division. This may be overruled by Secret Ballot.

xiii. *Move to a Vote*: requiring a simple majority vote to pass, *Move to a Vote* will force debate to be curtailed and the General Meeting to proceed directly to speeches of summation and then to a *Vote*.

- 6.10.2 Procedural Motions shall be taken in the order of precedence as they appear above.
- 6.10.3 The Chair shall be obliged to hear any Procedural Motion put and the Proposer's reasons for proposition.
- 6.10.4 The Chair shall have the right to disallow all Procedural Motions except S.O. 6.10.1.iv "No Confidence in the Chair" and S.O. 6.10.1.ii "Challenge to the Ruling of the Chair". The Chair may only disallow a "Quorum Count" S.O. 6.10.1.i if such a count has been allowed to take place in the previous ten minutes and the Chair is reasonably satisfied that a Quorum is present.
- 6.10.5 All Debate shall be suspended immediately a Procedural Motion is proposed.
- 6.10.6 When a Procedural Motion is put and allowed by the Chair, the Chair shall repeat the Procedural Motion which shall then take precedence over all other business except a Procedural Motion higher in the order of precedence. After the Proposer has stated their reasons, the Chair may appoint an Opposer to the motion at their discretion except in the case of *Move to a Vote* and Quorum Count where there shall be no Debate. All Procedural Motions except the Quorum Count and *Move to a Vote* may be debated in line with S.O. 6.9.3. if there is opposition, at the discretion of the Chair.

C Room Ballot

C.1 Room Ballot

C.1.1 The overall order of choice on the Final Room Ballot shall consist of Fourth Year Ballot at the top (with respect to point 2.5 below), followed by the Third Year Ballot, with the Second Year Ballot at the bottom.

C.1.2 A ballot of all incoming fourth years, with the exception of Classicists, Law Course II students and Modern Linguists, shall be drawn no later than Sunday of 6th Week of Hilary Term. Incoming fourth year Modern Linguists, Classicists and Law Course II students may undertake to join the fourth year ballot by response to an e-mail sent by the Vice President in Hilary Term. These students will be able to ballot with other incoming fourth years in that ballot. Failure to respond to the Vice President's email will be treated as a desire to stay in their usual position. This does not prevent a fourth year who stays in the third year ballot from choosing a remaining room in a fourth year house, if one is left when they come to choose a room.

C.1.3 The order of choice in the Room Ballot for incoming third and fourth year classicists, Law Course II students and modern linguists shall be determined in the following order:

- i. The second year ballot from the previous year shall be inverted.
- ii. Fourth year Modern Linguists shall be reinserted into the ballot at the position they would have occupied in their third year had they been in residence.

For example, if last year's third year ballot was as follows:

1. Tim Smith
William Pogge (removed linguist)
2. Francesca Rawls
3. Patty Green
Eleanor Wild (removed linguist)
Nicholas Poole (removed linguist)

Then William Pogge shall be given second place, Eleanor Wild fifth place, and Nicholas Poole sixth place. They shall then be put back into this year's ballot in the following manner:

1. Sam Frost (normal third year)
2. Emily Iversen (normal third year)
- 2a. William Pogge (returning linguist)
3. Jack Miles (normal third year)
4. Ann Law (normal third year)
5. Vince Mint (normal third year)
- 5a. Eleanor Wild (returning linguist)
- 6 Phil Saundry (normal third year)
- 6a. Nicholas Poole (returning linguist)

Finally, their position relative to the other third year at that position

shall be determined by the toss of a coin. For example, if Tails is taken to mean that the returning linguist takes the normal third year's position and all returning linguists come up Tails, then the room ballot should look like this:

1. Sam Frost (normal third year)
 2. William Pogge (returning linguist)
 3. Emily Iverson (normal third year)
 4. Jack Miles (normal third year)
 5. Ann Law (normal third year)
 6. Eleanor Wild (returning linguist)
 7. Vince Mint (normal third year)
 8. Nicholas Poole (returning linguist)
 9. Phil Saundry (normal third year)
-
- iii. Fourth year Classicists and Law Course II students shall be reinserted into the ballot at the position they would have occupied in their third year (but for point 1.3.5.) in a similar manner as above, their position relative to the other third year at that position being determined by the toss of a coin.
 - iv. Undergraduates who have been out of residence for the preceding year and who are returning for the academic year to which the ballot relates as third years, shall be inserted into the ballot at their third year position.
 - v. Third year Modern Linguists and Law Course II students who are spending their third year out of residence shall be removed from the third year ballot.
 - vi. Third year Classicists shall be removed from their current ballot positions and placed at the bottom of the third year ballot, a separate paper draw determining the respective positions of each member in that group.
 - vii. Undergraduates who have been out of residence for the preceding year and who are returning for the academic year to which the Ballot relates as Second Years shall be inserted into the Ballot at their second year position.
 - viii. Any undergraduate (such as EUMEL or Russian modern linguist) who takes a year abroad in their second year will be treated as follows. They will be allowed to ballot with their friends in the first year, as if they were staying in College for their second year. Their place in the third year room ballot will therefore be determined by the inversion of the second year ballot like regular undergraduates. For their fourth year, they will be included in the fourth year room ballot referred to in point 1.2.
 - ix. Undergraduates who have suspended their studies shall be inserted into the ballot which relates to their academic year, or they may undertake to resume their position in the ballot which relates to their matriculation year by response to an email sent by the Vice President in Hilary Term. In the case of the latter, for the following year, they shall be inserted into the ballot which relates to their academic year. Insertion into their academic year will be by random number generator or balloting as part of a group if appropriate to that year and before the usual deadlines.

- x. To insert by random number generator, the process shall be carried out as follows:
 - a) Identify the total number of students currently in the ballot (excluding any students due to be inserted into the ballot), N ,
 - b) Choose a random number, k , between 1 and $N + 1$,
 - c) Insert the student into the k th position, moving lower students down.
- xi. The insertion of students by random number generator shall happen before the insertion of modern linguists, classicists and Law course II students. In the case of inserting more than one student, this process outlined in 1.3.10 shall be repeated with N increasing each time.

C.1.4 Incoming second years may enter the room ballot automatically as individuals or voluntarily in groups of up to six members.

C.1.5 The Vice President shall solicit for group entries to the Second Year Ballot, the deadline for which shall be Wednesday 6th Week of Hilary Term at 6pm.

C.1.6 On Sunday of 7th Week, Hilary Term, group and individual entries to the Second Year Ballot will be placed on the ballot in the order of their being drawn out of a hat which contains one piece of paper for each individual or group. On each occasion that a group entry is drawn out, a separate paper draw will take place to determine the order in which the individual members of that group shall appear on the ballot.

C.1.7 The Final Room Ballot shall be emailed to all members within 24 hours of the drawing of the Second Year Ballot.

C.2 Room Choosing

C.2.1 A list of the available rooms and floor plans, and photos where they exist, thereof shall be emailed to all members by Friday of 8th Week, Hilary Term, subject to being made available by the Accommodation Manager or Estates Bursary.

C.2.2 Viewing of rooms shall take place as available during 1st and 2nd Week of Trinity Term.

C.2.3 Room choosing for fourth and third years shall take place in 3rd Week of Trinity Term.

C.2.4 Room choosing for second years shall take place in 5th Week of Trinity Term.

C.2.5 Fourth years, except fourth year classicists, lawyers and modern linguists, may only choose rooms in the houses which the JCR has designated as fourth year houses. Fourth year classicists, lawyers and modern linguists who have joined the fourth year ballot are also limited to choosing from the fourth year houses.

C.2.6 A member may give permission for another member to choose a room for them, subject to the Vice President being notified of such permission at least 24 hours prior to room choosing.

C.2.7 Members intending not to live in College accommodation must notify the Vice President of this at least 24 hours prior to room choosing.

- C.2.8 In the event that a member does not attend room choosing, and they have not informed the Vice President that another member will be choosing a room for them or that they are not intending to live in College accommodation, the Vice President shall choose what they consider to be the most suitable room on behalf of that member.
- C.2.9 The JCR President-elect and Vice President-elect shall choose whether or not they will reside in their designated rooms before the room choosing date applicable to them. Should this not be possible, they will be given the option to reside in the designated rooms after their room choosing. These rooms will be made available to the JCR as in [C.2.10](#).
- C.2.10 In the event of a room becoming available after room choosing, this will be advertised to the JCR and the room will be made available to the person highest on the room ballot who wishes to move into that room.

D The Charities Sponsorship Fund and Junior Members Charities Committee

- D.1 The purpose of the Charities Sponsorship Fund (henceforth, the “Sponsorship Fund”) is to support Junior Members in the pursuit of charitable causes.
- D.2 The Merton College Junior Members Charities Committee (henceforth “the Charities Committee”) shall have the authority to make donations from the Sponsorship Fund. For advice concerning applications to the Sponsorship Fund, Junior Members are referred to the Charities Representative of their respective Common Room.
- D.3 The Charities Committee shall consist of the President, Treasurer, and Charities Representative of the JCR, and the same of the MCR, and shall meet at least once a term. The Charities Committee shall be co-chaired by the Charities Representatives of the JCR and MCR, and each Common Room shall have three votes. Quorum for a Charities Committee meeting shall be all six members present and voting. There shall be no abstentions from a vote, and an application requires more votes in favour than against to pass. JCR and MCR Representatives on the Charities Committee serve ex officio on said Committee and it shall be permissible for their votes to be directed by their respective Common Room according to its rules.
- D.4 Applications for the Sponsorship Fund should be completed on the form available on the JCR website or from one of the Charities Representatives, and presented to that Charities Representative no later than two days before the Charities Committee meeting. The form shall be completed by the applicant, presented to the Charities Representative, and considered by the Charities Committee. The Charities Committee shall review its application and approval process annually in its meeting in Hilary Term.
- D.5 The maximum amount that can be granted to any one Junior Member in any one application is £200, or in exceptional circumstances £500. Applications must show that other sources of funding are also being sought, and grants from the Sponsorship Fund may not be more than 50% of the total raised for the activity. The distribution of the Sponsorship Fund rests with the Charities Committee.
- D.6 Extraordinary Meetings of the Charities Committee may be summoned by a simple majority resolution in the General Meeting of either the JCR or the MCR. There shall be two possible reasons for an Extraordinary Meeting: a) to consider an urgent application, the timing of which results from no fault of the applicant or b) to reconsider an application rejected by the immediately preceding Charities Committee meeting. An Extraordinary Meeting shall run along the same lines as detailed in paragraph 3 of this Appendix.
- D.7 Preference shall be given to those Junior Members who have not previously applied to the Sponsorship Fund over those who have, though there is no limit on the number of times a Junior Member may apply for grants from the Sponsorship Fund.

- D.8 The Charities Representatives and the Treasurers shall be responsible for publishing termly accounts of Sponsorship Fund expenditure to their respective Common Rooms. The Charities Representatives shall request feedback material from successful applications to be posted on Common Room noticeboards to ensure Junior Members are aware of how Sponsorship Fund expenditure has been used.
- D.9 This Appendix may only be altered with the approval of the General Meeting of both the JCR and the MCR.

E The Charities Ballot

- E.1 The purpose of the Junior Members' Charities Ballot is to facilitate Junior Members donating to worthwhile causes.
- E.2 Unless they choose to opt out, Junior Members shall donate £10 through the Charities Ballot at the end of every term. This donation shall be charged through battels and appear in arrears.
- E.3 The £10 shall be split equally (so that each cause receives £2 per normal donation) between:
- i. The two permanent Junior Members' charities (Icolyn Smith Foundation and the Wolvercote Young People's Trust)
 - ii. The Junior Members' two nominated charities being supported for the academic year
 - iii. The Charities Sponsorship Fund
- E.4 Any money assigned to the Sponsorship Fund that remains unallocated after the end of Full Term shall be divided equally between the other four charities.
- E.5 The Charities Representatives shall contact all members of their Common Rooms to inform them of their option to opt-out of the termly charities levy with a deadline of Friday of 7th Week, to give sufficient time to inform the bursary. Any opt-outs shall be treated in complete confidence by the Charities Representatives.
- E.6 During 6th Week of Michaelmas Term the Charities Representatives shall run a ballot to decide which two charities the Junior Members wish to support for the academic year. Nominations for the Ballot shall be requested from Sunday of 5th Week. The Charities Representatives shall publish a list of the nominated charities on Sunday of 6th Week. This shall include each charity's website address (if applicable), a brief summary of their work and any history of nomination by the Junior Members. Each Junior Member can vote for up to two charities. The ballot shall close on Saturday of 6th Week and the result shall be announced at the next General Meeting of each Common Room.
- E.7 This Appendix may only be altered with the approval of the General Meeting of both the JCR and the MCR.

F Single Transferable Vote (STV) Instructions

Detailed STV Instructions (ERS97)

These instructions are taken from How to Conduct an Election by the Single Transferable Vote (Third Edition 1997) which may be found in its entirety at:

<http://www.crosenstiel.webspace.virginmedia.com/stvrules/index.html>

The sections shown below (4-6) are to be used for the conduct of JCR Elections by Single Transferable Vote. The other sections are informative and advisory and are either unnecessary or superseded by instructions in S.O.4. This variation of STV is generally referred to as ERS97. The colour coding suggested is optional.

F.1 General description of the count

- F.1.1 The count is divided into a number of stages. At the first stage the voting papers are counted to determine the total vote. They are then sorted according to their first preferences, and any papers which are invalid are removed. The total number of valid votes is then found and the quota calculated. Any candidates who have at least a quota of first preference votes are deemed elected at this stage.
- F.1.2 Each subsequent stage of the count is concerned either with the transfer of surplus votes of a candidate whose vote exceeds the quota, or with the exclusion of one or more candidates with the fewest votes.
- F.1.3 This procedure continues until either sufficient candidates have reached the quota to fill all the seats, or there is the same number of candidates left as unfilled seats.
- F.1.4 These rules refer to the various forms published by the Electoral Reform Society. The use of these forms is optional, but where they are used, the various options should be made easier, particularly for those not experienced in conducting STV counts.
- F.1.5 In the rules below, words in **bold type** indicate that there is a definition in the glossary (section 6).

F.2 Detailed instructions for the count

In a public election, it is necessary to include certain formalities, such as unsealing and opening the ballot boxes at the start, checking the number of papers in each and ascertaining that the candidates and their agents are content at the conclusion of each stage. For simplicity these have been omitted from these instructions.

F.2.1 First stage

- F.2.1.1 Count all the voting papers to determine the total number of votes cast.

- F.2.1.2 Sort the voting papers into **first preferences**, setting aside any **invalid papers**. Count the number of invalid papers, and subtract this from the total vote to get the **total valid vote**.
- F.2.1.3 Check the sorting, and count the papers for each candidate into bundles, inserting a **counting slip** (green) in each bundle marked with the name of the candidate, the number of papers, and “first stage”. For very small elections, the use of counting slips may be dispensed with.
- F.2.1.4 Check the counting. Enter on each candidate’s **vote record form** (yellow) the total number of **first preference votes**.
- F.2.1.5 Copy the **candidates’ votes** from the vote record forms onto a **result sheet** (white), and check that their total is the same as the total valid vote.
- F.2.1.6 Calculate the **quota** by dividing the total valid vote by one more than the number of places to be filled. Take the division to two decimal places. If the result is exact that is the quota. Otherwise ignore the remainder, and add 0.01.
- F.2.1.7 Considering each candidate in turn in descending order of their votes, **deem elected** any candidate whose vote equals or exceeds:
 - i. the quota, or
 - ii. (on very rare occasions, where this is less than the quota), **the total active vote**, divided by one more than the number of places not yet filled, up to the number of places to be filled, subject to paragraph 5.6.2.
- F.2.1.8 That completes the first stage of the count. Now proceed to section 5.2 below.

F.2.2 Subsequent stages

Each subsequent stage will involve either the distribution of a surplus, or, if there is no surplus to distribute, the exclusion of one or more candidates. If one or more candidates have surpluses, the largest of these should now be transferred. However the transfer of a surplus or surpluses is deferred and reconsidered at the next stage, if the total of such surpluses does not exceed either: (a) The difference between the votes of the two candidates who have the fewest votes, or (b) The difference between the total of the votes of two or more candidates with the fewest votes who could be excluded under rule 5.2.5, and the vote of the candidate next above. If one or more candidates have surpluses which have not been deferred, transfer the largest surplus. If the surpluses of two or more candidates are equal, and they have the largest surplus, transfer the surplus of the candidate who had the greatest vote at the first stage or at the earliest point in the count, after the transfer of a batch of papers, where they had unequal votes. If the votes of such candidates have been equal at all such points, the Returning Officer shall decide which surplus to transfer by lot. The transfer of a surplus constitutes a stage in the count. Details of how to do this are in section 5.3. If, after completing the transfer, there are still any untransferred surpluses, and not all the places have been filled, proceed as in paragraph 5.2.2. If, after all surpluses have been transferred or deferred, one or more places remain to be filled, the candidate or candidates with the fewest votes must be excluded. Exclude as many candidates together as possible, provided that: (a) Sufficient candidates remain to fill all the remaining places (b) The total votes of these candidates,

together with the total of any deferred surpluses, does not exceed the vote of the candidate next above. If the votes of two or more candidates are equal, and those candidates have the fewest votes, exclude the candidate who had the fewest votes at the first stage or at the earliest point in the count, after the transfer of a batch of papers, where they had unequal votes. If the votes of such candidates have been equal at all such points the Returning Officer shall decide which candidate to exclude by lot. Details of how to exclude a candidate are given in section 5.4. Exclusion of one or more candidates constitutes a stage in the count. If, after completing this, there are any surpluses to transfer, and not all the places have been filled, proceed as in paragraph 5.2.2. Otherwise proceed to exclude further candidates as in paragraph 5.2.5.

Transfer of a surplus If a surplus arises at the first stage, select for examination all the papers which the candidate has received. If a surplus arises at a later stage, because of the transfer of another surplus or the exclusion of a candidate or candidates, select only the last received batch of papers, which gave rise to the surplus. Examine the selected voting papers and sort them into their next available preferences for continuing candidates. Set aside as non-transferable papers any on which no next available preference is expressed. Check the sorting, count and bundle the papers now being transferred to each candidate, also any non-transferable papers. Insert a counting slip in each bundle marked with the stage number, the name of the candidate to whom the papers are being transferred, and the number of papers in the bundle. Count the number of transferable papers and enter the number for each candidate on the vote record forms. Prepare a surplus form (pink). Copy the number of papers for each candidate from the vote record forms to the surplus form, and check the total. Calculate the total value of the transferable papers. If this exceeds the surplus, determine the transfer value of each paper by dividing the surplus by the number of transferable papers, to two decimal places, ignoring any remainder. If the total value does not exceed the surplus, the transfer value of each paper is its present value. Calculate the value to be credited to each candidate by multiplying the transfer value by the number of papers, check the totals, and enter these on the surplus form. Copy the values to be credited, and the non-transferable difference arising from the neglected remainder, from the surplus form to the vote record forms and to the result sheet. Add these values to the previous votes for each candidate, and add the non-transferable difference to the previous total of non-transferable votes, entering the figures onto the vote record forms and the result sheet. Add up the new total number of votes on the result sheet, and check that this still equals the original total valid vote. Complete the counting slips with the transfer value of each paper, and place the bundles of voting papers for each candidate with those previously received. In a small election, where counting slips are not being used, each ballot paper should be marked with its transfer value. Considering each continuing candidate in turn in descending order of their votes, deem elected any candidate whose vote now equals or exceeds

Transfer of the votes of excluded candidates Take together all the bundles of papers which are currently credited to the candidate or candidates to be excluded, and arrange them in batches in descending order of transfer value. Check that the number and total value of the papers in each batch agrees with the numbers on the vote record forms and the result sheet. Prepare an exclusion form (blue). First, take the batch of papers with the highest transfer value. Sort them according to the next available preferences for continuing

candidates, and set aside as non-transferable papers any on which no next available preference is expressed. Check the sorting, count and bundle the papers for each candidate and any non-transferable papers. Insert a counting slip in each bundle stating the stage, the name of the candidate to whom the papers are being transferred, the number of papers, and the transfer value of each paper. If counting slips are not being used, the transfer value should be marked on each paper. Check the counting and enter the number of papers for each candidate and the number of non-transferable papers on the vote record forms. Copy the number of papers to be transferred to each candidate and the number of non-transferable papers, from the vote record forms onto a column of the exclusion form, and check the total. Determine the total value of the papers for each candidate and that of the non-transferable papers and check the total. Copy the total values for each candidate from the exclusion form to the vote record forms, and place the bundles of voting papers for each candidate with those previously received. If any papers have become non-transferable before any candidate has been deemed elected, recalculate the quota as in paragraph 5.1.6, ignoring the non-transferable vote. Considering each continuing candidate in turn in descending order of their votes, deem elected any candidate whose vote now equals or exceeds (a) the quota, or (b) the total active vote, divided by one more than the number of places not yet filled, up to the number of places remaining to be filled, subject to paragraph 5.6.2. Ensure that no further papers are given to candidates who are no longer continuing candidates because they have been deemed to be elected after transferring a batch of papers. As in paragraph 5.4.2 and subsequently, sort and transfer each batch of papers in turn in descending order of transfer value, complete a column of the exclusion form for each batch, and deem candidates to be elected as appropriate. After all the batches of papers have been transferred, the right hand (totals) column on the exclusion form should be completed and these totals checked against the vote record form(s) of the excluded candidate(s). Copy the total values to be credited from the exclusion form to the vote record forms and to the result sheet, and add these to the previous totals for each candidate. Copy the new vote for each candidate from the vote record forms onto the result sheet, and the new non-transferable vote from the exclusion forms onto the result sheet. Add up the new total vote on the result sheet and check that this agrees with the original total valid vote. Completion of the count If a proposed exclusion of one or more candidates would leave only the same number of continuing candidates as there are places remaining unfilled, all such continuing candidates shall be deemed to be elected. If, at any point in the count, the number of candidates deemed to be elected is equal to the number of places to be filled, no further transfers of papers are made, and the remaining continuing candidate(s) are formally excluded. The count is now completed. Declare elected all those candidates previously deemed to be elected. Notes Calculation of the total active vote may be simplified if the Count Control Form (beige) is used. This form enables the Returning Officer to keep a continuous check on the number of votes which are required for election of a candidate at any point in the count, by deducting the quotas (or actual votes if less) of the candidates deemed elected, and the total of non-transferable votes, from the total valid vote, to give the total active vote. If, when candidates should be deemed elected under sections 5.1.7, 5.3.13 or 5.4.9, two or more have the same number of votes, and there are not sufficient places left for them all, then the one or more to be

deemed elected shall be selected in descending order of votes at the first stage or at the earliest point in the count, after the transfer of a batch of papers, where they had unequal votes. If, however, their votes have been equal at all such points, then none of them shall be deemed elected at that stage. If a re-count is conducted where a decision has been determined by lot, and the relevant votes are still equal in the recount, the earlier determination shall still hold. These rules refer to the various forms published by the Electoral Reform Society. The use of these forms is optional, but where they are used, the various options should be made easier. Glossary of terms in alphabetical order

Batch: a bundle containing all the papers of one value in a transfer.

Candidate's vote: the value of voting papers credited to a candidate at any point in the count.

Continuing candidate: a candidate not yet deemed elected or excluded.

Count Control form (beige): a form designed to be used to keep a continuous note of the total active vote, and hence the vote required for election of a candidate at any point in the count.

Counting slip (green): a slip inserted with a bundle of voting papers, showing the stage at which the papers are transferred, the name of the candidate to whom they are transferred, the number of papers in the bundle, and the transfer value of each paper.

Deemed elected: status of a candidate who is elected subject to formal confirmation.

Exclusion form (blue): a form showing the distribution of batches of papers in descending order of transfer value from one or more excluded candidates to continuing candidates.

First preference: this is shown by the figure "1" standing alone against only one candidate on a voting paper; or the name or code of a candidate entered on a voting paper as first preference.

Invalid paper: a voting paper on which no first or only preference is expressed, or on which any first preference is void for uncertainty.

Next available preference: the next subsequent preference in order, passing over earlier preferences for candidates already deemed elected or excluded. There is no next available preference where the next sequential preference for a continuing candidate is uncertain.

Non-transferable difference: the difference between the value of a surplus and the total new value of the papers transferred, which arises from ignoring the remainder when calculating the transfer values to two decimal places.

Non-transferable paper: a voting paper on which no next available preference for a continuing candidate is expressed, or on which any next available preference is void for uncertainty.

Non-transferable vote: the value credited as non-transferable at any point in the count.

Quota: the vote which, if attained by as many candidates as there are places to be filled, leaves at most a quota for all other candidates; the total valid vote divided by one more than the number of places to be filled, or a lesser value calculated as in paragraph 5.4.8.

Result sheet (white): a sheet showing the vote credited to each and every candidate, and the non-transferable vote at successive stages of the count.

Stage of the count: the determination of the first preference vote for each candidate (first stage) or the transfer of a surplus or the exclusion of a candidate, or two or more candidates at the same time, and the transfer of their votes.

Subsequent preferences: shown by the figures "2", "3", etc., standing alone against different candidates on a voting paper; or the names or codes of candidates entered in order on a voting paper as second, third, etc., preferences.

G The Merton Winter Ball

G.1 General Regulations

- G.1.1 There shall be a Joint Standing Committee of the MCR and JCR to be called The Ball Committee, the posts for which are to be open to both common rooms for general election. The Standing Orders governing the operation of the Ball Committee shall be the same as those set out for all Standing Committees (S.O. 3.4) unless expressly stated otherwise below.
- G.1.2 There shall be a Merton College Winter Ball in Michaelmas Term once in every three years. Thus, there shall be a ball in the Michaelmas Terms of 2022, 2025, 2028 and thereafter.
- G.1.3 The Ball Committee shall exist to provide a self-financing and enjoyable Ball for the College.
- G.1.4 The Ball Committee should act always in accordance with the spirit in which the Ball is intended and not seek to profit unfairly from their position.

G.2 Election and appointment of the Committee members

G.2.1 The Executive

- G.2.1.1 The Committee shall consist of the Ball Chair, Ball Secretary and Ball Treasurer, all of whom are to be elected by secret ballot (see 8 below). These three (hereafter “the Ball Executive”) shall be elected at least one year prior to the date on which the proposed Ball is to be held, and not less than 2 weeks before the end of the term in which the election occurs. (i.e. if a Ball is to be held in Michaelmas 2022, the Ball Executive shall be elected by the end of 6th Week of Michaelmas 2021).
- G.2.1.2 The outgoing Ball Executive members will each write a short job description that will be circulated to all Junior Members of the College by the Returning Office of the JCR when advertising for candidates.
- G.2.1.3 Candidates for the roles of Ball Chair, Ball Treasurer and Ball Secretary must receive written from their Tutors before being allowed to hust for any of the positions, and may not be on the JCR or MCR Executive Committee during their appointment.
- G.2.1.4 The process for electing the Ball Executive shall be as for members of the JCR Executive Committee (S.O. 4), except that before the hustings held by the Returning Officer, each of the candidates will be interviewed (in public) by a panel consisting of (at their convenience) the JCR and MCR Presidents and Treasurers, members of the previous Ball Executive, and any other junior member of the College appointed by the JCR and MCR Presidents. This panel shall consist of no more than 10 members. - G.8.6 It is suggested that an initial loan be made by both the JCR and MCR (through motions in their Ordinary General Meetings) to cover early costs. The Ball Committee shall borrow an equal sum from both common rooms.
- G.8.7 In the event of any loss made by the Ball, all benefits to the Ball Committee, including the selling of Ball swaps and assets of the Ball, shall be realised before any loss is incurred by the JCR and MCR. Any loss incurred shall be split equally by the JCR and MCR.
